The Absurd Future Question (What if...?)

Start with a “what if” that feels a little ridiculous. What does the future look like? The more absurd, the better.

The Human Spark

What emotion, memory, or experience is driving this?

The Serendipity Output

What’s the first thing you’d make even if it’s pointless at first?

The Skills & Tools

Which skills & tools do you need do you need? Where do you need support? Who could help?

What’s artificial intelligent about it?

What aspects would you describe as intelligent? Why?

Expected and Unexpected Learnings

What might you learn? What do you want to share with the Creative Space Community?

The First Test

What’s the smallest, silliest way to try it?
